Confirmation TSCA (Toxic Substances Control Act) – PBT regulation

On February 5, 2021, the U.S. Environmental Protection Agency (EPA) published a new rule under Section 6 of the Toxic Substances Control Act (TSCA), according to which 5 PBT substances are to be banned in products in the USA in the short term, subject to various exemptions. The substances, which have been banned for import, processing/manufacturing and sale in the USA since March 8, 2021, are as follows

- | | |
|--|--------------------|
| - Decabromodiphenylether (decaBDE) | CAS-No. 1163-19-5 |
| - Phenol, isopropylated phosphate (3:1) (PIP3:1) | CAS-No. 68937-41-7 |
| - 2,4,6-tris(tert-Butyl)phenol (2,4,6-TTBP) | CAS-No. 732-26-3 |
| - Hexachlorbutadien /HCBD) | CAS-No. 87-68-3 |
| - Pentachlorthiophenol (PCTP) | CAS-No. 133-49-3 |

Currently we are not using any of the substances listed in this regulation. However, the presence of traces from not reported impurities of raw materials from our suppliers cannot be ruled out.
